Education

- 2008–2013 **High School Degree**, *International School of Amsterdam*, Amsterdam, 6/7.
International Baccalaureate system
- 2013–Present **Bachelor of Science**, *University of British Columbia*, Vancouver, 80% Average.
Changed degree plan several times but have experience in engineering (mechanical, electrical, mechatronic) and am currently doing a combined computer science and physics degree

Experience

Vocational

- 2014–2014 **Software Engineer**, *Axiom Zen*, Vancouver.
Had a role helping a startup as a general software engineer. Loose structure meant taking on lots of high level responsibilities.
Detailed achievements:
 - Front end design for website application
 - Setup of map servers
 - Integration of front end and back end (data flow)
- 2012–2013 **Software Engineer and product manager**, *TomTom*, Amsterdam.
Assisted in the implementation of several algorithms, and helped initiate the design process for a new wearable fitness product.
Detailed achievements:
 - Successful implementation of clustering algorithm
 - Design proposal of wearable fitness tracker
- 2011–2011 **Customer service representative**, *TomTom*, Amsterdam.
Helped customers with technical questions in a customer support call centre

Miscellaneous

- 2015–2015 **Software Engineer**, *UBC Sailbot*, Vancouver.
Helped in the design and implementation of a software system for an autonomous sailing vessel

Languages

English	Fluent	<i>Native language</i>
Dutch	Fluent	<i>Native language</i>
French	Fluent	<i>Native language</i>

Computer skills

Languages Java, Javascript, C++, \LaTeX
Software Final Cut Pro, Logic Pro, Sketch, Matlab

Interests

Skiing Downhill and freestyle
Mountain Road and enduro
biking
Running Long distance, to improve my fitness and mental health
Waterpolo Great team sport, very physical and important to give it your all
Film Watching and also creating small sports edits

Prizes

- Several prizes for excellence in Maths, Physics, and Chemistry during high school
- Several small scholarships at UBC of the amount of between \$500 and \$1000
- 3rd place in a mechatronics design competition at UBC
